Yusuf Erdem Yamalı

Junior Back-End Developer

Eskişehir, Türkiye ✉ yusuferdem.dev@gmail.com ☎ +90-552-3502531

I'm a software developer and I've just entered the exciting world of software development! Although I'm new to the development environment, I've been in the IT sector for many years. Studying in the Department of Management Information Systems has already improved my communication, project management and problem-solving skills. I'm excited to continue developing these skills and technical knowledge with a continuous improvement approach.

Experience

11.2024-02.2025 **Intern Back-End Developer**
Bahasoft Yazılım
Eskişehir, Türkiye
Bahasoft Yazılım was an opportunity for me to improve my PHP and Laravel skills. I developed dynamic websites with multiple pages. I evaluated the revisions from the customers in the best ways and provided positive feedback on behalf of the company.

07.2024-10.2024 **System Manager**
Movus Lojistik
Eskişehir, Türkiye
I gained workplace experience with Movus Lojistik. I was able to develop my management skills as I had one of the positions managing the operation. While managing the employee organisation in the field, I was also responsible for the technical and technological system of the company.

02.2022-07.2012 **SEO Manager**
Begenal Halı
Bursa, Türkiye
Begenal Halı is special for me as it was my first workplace in my field. This position taught me what it is like to work in a corporate workplace. I was responsible for running the SEO operations of an e-commerce site of a carpet company with a large inventory. I learnt SEO management with Begenal Halı.

Education

09.2021- Still **İnegöl İşletme Fakültesi – Yönetim Bilişim Sistemleri**

Uludağ Üniversitesi
Bursa, Türkiye

Skills / Tools

Languages	Skills/Competences	Tools & Technologies
Turkish	Backend Development	PHP/Laravel Advanced
English	Website Development	Python Intermediate
	Project Management	HTML/CSS Intermediate
	Leadership	MySQL/SQL Server Intermediate
	Communication Skills	C#/C# .net Intermediate
	IT knowledge	MS Office Intermediate
		GIT Intermediate
		JS/Node.js Limited Experience

Certificates/Events

During my education life, I participated in various seminars and events related to my field with the opportunities provided by my university. The opportunities of my university were not my only option in my journey of self-development. Individually, I also participated in events such as DEVFest organised by Google Student Developer Group.

Fields of interest

I have always been a live wire, and a people person to boot! I'm a bit of a laugh, and that's why I have such a varied set of interests. I'm into everything – playing instruments, listening to music, computers (I'm a computer geek!), travelling and getting to know new cultures. I studied in one of France's elite secondary schools for two years, so I love getting to know new cultures!
